Summary

I'm currently working as a Head of Technology Manager at LifetimeCode as well as Senior Full-Stack developer using 2 different stacks (LAMP / MEAN). I successfully managed plenty of projects for startups taking them from an idea stage to the final stages of saturation in market, some of the startups include Weelo, Ta2ssima, Lina Caters, Egaar, SportsOfEgypt, Alrazy Medical Health, CDOC and many others, some of these projects I worked as full-stack developer.

My objective is to be a part of an organization (Small or Large) which is making a real difference in people's lives using the latest trends of technology, I want to have my impact on creating new technologies and facilitating the development of new software.

Interested in:

- Software Project Management
- Mobile Application Development (iOS / Android) Hybrid (Cordova)
- Server-side backend programming (PHP, Node.js, JavaScript)
- Modern REST API
- Scrum/Agile Software Development
- Git source control

Specialties:

- Software and Database Architecture, Design and Development
- Cordova Mobile Application Development.
- Programming server-side PHP / MySQL.
- Unix/Linux Server Administration.

Skills:

- End-to-End development (Full-Stack) Backend & Front-end
- Evaluate various technologies and platforms
- Quickly learn new programming language or technology when required
- Object-oriented programming
- Big Data Handling / Storage and Optimization
- Working with Open Source technologies extensively
- Develop Internal enterprise software
- Solving problems by writing code
- Experience with server-side technology Node.js
- Experience with front-end technologies HTML/CSS/Javascript/jQuery/Ajax/Angular.js
- Experience with RDBMs technologies MySQL/MS-SQL
- Experience with NO-SQL technologies MongoDB/Memcached
- Code testing and debugging
- Performance testing & optimization
- Memory management
- Multiple operating systems Linux/Windows/MacOS
- Distributed systems (web based systems, web applications, web portals, web services, APIs)
- Software deployment and scaling
- Performance testing & optimization
- Ability to take a full project to successful completion from start till the end

Passionate user of:

- Coda2 IDE
- XCode / Android Studio

Hobbies: Traveling, Guitar playing (acoustic / electric), Gaming (Huge FIFA fan)
